## From the lapland's pure nature

Originally history of kotas' begun thousands years ago. Everything started when northern people faced extremely cold weather and they had to find a way to stay warm. Term "kota" has been used to describe variety of kotas, huts and other buildings that looked like kotas. Normally kota is kept warm by using fire in the middle of kota. This fire was and is still used to warm up and more importantly to prepare food.

Arctic Finland House - company's roots come from lapland. Since 1990's Arctic Finland House has designed, manufactured and constructed mostly grillkotas and later on more variety of products such as garden houses, pavilions, saunakotas, barrel saunas, camping barrels, hot tubs and so on.

Main goal is to combine every day life to a very relaxing and spiritual lapland's atmosphere. Arctic Finland House is one of the first companies that started manufacturing high quality grillkotas. Today Arctic Finland House offers over 30 different products and still today Arctic Finland House's grillkota is setting the standards for high quality.

Arctic Finland House values traditional hand skills and encourages old traditions when manufacturing kotas in their factory. By using only latest technology we can ensure that the quality is always meeting the high demands of our clients. We wish you, your friends and family very pleasant and relaxing times in our kotas.

\*Photos may vary from original product. Arctic Finland House reserves all the rights for product changes due to the product development.

Wall material is thick 45 mm double thonged spruce.

Breathable double roof and rain cap protects kotas from rain and mold.

Smoke collector makes sure that all the smoke goes outside.

ARCTIC-Grill is complete package for barbecue parties.

Lapland packet: Wooden tables and cutlery, "kuksa" wooden cups, guestbook, "schnapps" binoculars, thermometer, tea pan and stand, pan holder, wooden serviette stand, grill gloves and wooden clock.

High 1330 mm wall makes it easier to sit inside.

Quality lock keeps uninvited guests outside.

Unique design brings feeling of Lapland.

Clue frame makes our doors lasting longer.

Small and finished details.

Steel door step protects Kota from dirt and water.

Openable double glazed thermo windows.

Quick-snap window lists are easy to detach.

Insulated windows protects from cold.

Elements are easy and fast to assemble.

We offer different roof colors: black, grey, green, copper, brown and red.
