## Kleurenkaart voor interieur en exterieur

De nieuwe Deco Grey kleurenkaart toont fascinerende subtiele kleuren. Met zijn neutrale en genuanceerde grijs tinten kun je een mooi en harmonieus interieur creëren. De Deco Grey kleurenkaart bevat bijna honderd charmante grijs tinten: 72 dekkende, 15 semi-transparante en 7 grijze kleuren die geschikt zijn voor taika-verf.

De genuanceerde, speciaal ontworpen grijze kleuren van de Deco Grey collectie kunnen worden getint in alle tikkurila binnen- en buitenverven alsook semi-transparante producten.

## Dekkende grijs tinten

Grijze kleuren worden geleend van het palet van de natuur. Binnenshuis zijn grijze tinten tijdloos en passen ze perfect bij de moderne inrichting. Buitenshuis harmoniseren ze goed met het kleurenpalet van de natuur.

## Transparante grijs tinten

Hout is op zijn mooist wanneer het transparant wordt behandeld. Een transparante behandeling is een uitstekende keuze als u de natuurlijke schoonheid van het houtoppervlak wilt behouden. De uiteindelijke kleur wordt beïnvloed door de eigen kleur en porositeit van het hout, evenals door het aantal aangebrachte lagen en het gebruikte product.
